CORE COMPETENCIES

01 Data center and technical infrastructure

Installs, cables, and supports data center infrastructure, built to your elevation drawings and method of procedure.

Rack and stack · Structured cabling · Hardware deployment and staging · Smart Hands and break/fix · Moves, adds, and changes · Decommissioning and asset management

02 Logistics, warehousing, and supply

Equipment where it needs to be, with a record of every step.

Transportation · Warehousing · Supply and procurement · Project logistics · Reverse logistics · International logistics · Government mission support, including facilities and custodial support

03 Staffing services

Technicians, staff, and linguists placed for project or ongoing needs: temporary assignments, contract-to-hire, and direct hire placements, anywhere in the United States.

Data center, cabling, deployment, and hardware technicians and site leads · Logistics and warehouse staff · Administrative support staff · Dari, Pashto, and English linguists

PAST PERFORMANCE

Fast Horse Federal projects, 2025 to present

Since its registration in 2025, Fast Horse Federal LLC has been hired for:

- Data center support at enterprise data centers, including rack and stack and hardware deployment
- Equipment transportation and logistics

FHF has worked as a subcontractor, directly for site owners, and as a staffing provider. Customer names are not published. Project details are available to qualified buyers on request, with the customer's permission.

PREDECESSOR COMPANY EXPERIENCE

Historical experience, 2009 to 2021

Our predecessor company, Fast Horse Logistics & Services Co. Ltd., supported the U.S. government, U.S. Armed Forces, and U.S. Embassy operations in Afghanistan: fuel supply, equipment and vehicle rentals, crane services, custodial operations, interpreter and translation support, and logistics training programs.

Historical experience of the predecessor company. Not current Fast Horse Federal contracts.

DIFFERENTIATORS

- One point of coordination across the equipment lifecycle, so nothing is lost between the warehouse and the rack.
- Labels, photos, and as-built updates handed over at the end of every job.
- One technician or a full crew, up to multiple crews with logistics and asset staff for larger programs.
- Dari, Pashto, and English linguists.
- OSHA-trained technicians, including partner crews; general liability, workers' compensation, and commercial auto insurance.
- Federal operating history through our predecessor company, which supported the U.S. government from 2009 to 2021.
